### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Applicant's election of the invention of Group XV in the reply filed on December 9, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of claims 1-108, 110, 112, and 114-163 drawn to inventions non-elected without traverse. Accordingly, claims 1-108, 110, 112, and 114-163 have been cancelled.

Applicants' election with traverse of the invention of Group XV, the species SEQ ID NO:231 in the reply filed on December 9, 2004 is acknowledged. The traversal is on the grounds that no additional burden would be involved in searching the non-elected sequences of Group XV. While Applicants incorrectly summarize these sequences in Table 1 of the reply (in particular, SEQ ID NOS:202, 211, 237, and 272 as reported in the table do not correspond with these sequences as defined in the Sequence Listing filed September 18, 2003), the examiner agrees with the substance of Applicants' traversal. Accordingly, the restriction among SEQ ID NOS: 202, 211, 219, 221, 231, 237, and 272 is withdrawn. All of the claimed sequences recited in Group XV have been examined in their entirety. The claimed invention is deemed allowable over the prior art of record or any combination thereof because the prior art of record does not

teach or suggest peptides having the claimed sequences as defined in the Sequence Listing filed September 18, 2003. The allowable peptides in combination with vehicles, as are recited in claims 111 and 113, are also allowable over the prior art of record or any combination thereof.

The Sequence Listing filed September 18, 2003 has been approved.
